A Warm welcome to Ayathan School!

Make way for The Ayathanites

Our School transpires as a friendly neighborhood school allowing students to excel morally, intellectually, aesthetically and physically so that each will rise to achieve exceptional and honorable goals in their lifetime. Apart from providing value-based education that attracts students from

diverse social, economic and academic backgrounds, we at Ayathan School; also seek to equip them with the skills, knowledge and experiences to realize their true potential with technology as a background for tutoring.

Ayathan School made a humble beginning in 1965 and the first batch of 3 students appeared for the SSC 1998. The early years

of the school experienced a phenomenal growth under the leadership of our first Headmistress Mrs. Annie Gopalan, who served the fledgling institution with enthusiasm and. We had several teachers who contributed significantly to the growth of our school. Students who passed from our school today occupy important positions in the corporate world. Our School is moving ahead in its journey of educational excellence with its glorious past and envisioned

future. The school is committed for quality based education.

The teachers here envisage a clear shared sense of purpose between the parents, teachers focus on students learning. The strong team of teachers today encourage skill building, ensure continuous learning, assess performance and set a benchmark and work towards achieving it. We are committed to provide excellent educational opportunities to students, many of whom

are from the first generation learners. Our teachers primarily attach importance to over all development of learners. They pay sincere, individual attention for strengthening knowledge base enhancing skill potential and nurturing values of our young generation. The school has built a strong value based

A Warm welcome to Ayathan School!

(...continued from page 1)

culture which was developed on the basis of its past 48 years of teacher-learner relationship.

Over the years, the school has improved and expanded the infrastructure and today we have a full-fledged computer centre, a comprehensive science laboratory, and several infrastructure and other facilities for sports both indoor and outdoor. This success has been possible with the coordinated efforts of the Management, staff and parents. Adherence to

academic calendar, regular interaction and feedback with parents, updated curricula, skill up gradation, personality development etc. are the basic tenets of our learner centric education philosophy.

We had envisioned our distinct philosophy of learner based education system keeping in mind the ever changing environment of liberalization, globalization and privatization. We are constantly upgrading ourselves to promote and strengthen all the requisite

skills required for the learners in the years to come.

Although the school is constantly ambitious and enthusiastic, the school has miles to go before it can relax. But it is remarkable to mention the level of confidence it has in setting out to achieve all that it aspires for.

Success is not in a name alone

It comes with the right combination of **knowledge, talent, ability and guidance.**

Sports Club Activities

- Schematic Yoga and Karate Classes began on the 2nd of July 2013.
- Self Defense Training For Girls was conducted on the 4th Of July 2013.
- Bajaj Alliance Foot Ball Tournament commenced on the 4th Of July 2013.
- Subratho Cup Tournament for Football conducted on the 8th of July.

Hindi Club Activities

- Kavitha Rajana – [19th June 2013]
- Essay Writing Competition – [9th July 2013]

The One That Slipped Away

Can you find seven number words hidden in this paragraph?
Underline the number words. Then
Write the number words in the blanks at the bottom.

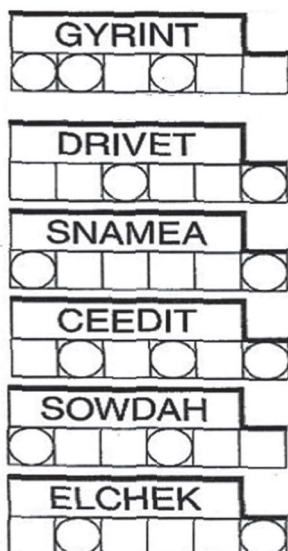

As an example, the word eight could be hidden inside one word. height, or between two words, like this: We will ride in a sleight tonight

Where has the fat worm gone? He was wriggling away from my reel even before I had the hook on it! If I've lost him. I'll be sorry. This evening I came prepared with reel, line and bait hoping to catch plenty of fish. It's not often that a worm of ours gets away!

JUMBLE

Unscramble these six Jumbles, one letter to each square, to form six ordinary words.

PRINT YOUR ANSWER IN THE CIRCLES BELOW

THAT SCRAMBLED WORD GAME

by Henri Arnold and Mike Arglion

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

WORLD HISTORY FACTS ABOUT INDIA

The world's first University was established in Takshila in 700BC. More than 10,500 students from all over the world studied more than 60 subjects. The University of Nalanda built in the 4th century BC was one of the greatest achievements of ancient India in the field of education.

Algebra, trigonometry and calculus came from India. Quadratic equations were by Sridharacharya in the 11th Century; the largest numbers the Greeks and the Romans used were 106 whereas Indians used numbers as big as 1053.

Sushruta is the father of surgery. 2600 years ago he and health scientists of his time conducted surgeries like cesareans, cataract, fractures and urinary stones. Usage of anaesthesia was well known in ancient India

Maths Interesting Facts

What comes after a million, billion and trillion? A quadrillion, quintillion, sextillion, septillion, octillion, nonillion, decillion and undecillion.

Zero (0) is the only number which can not be represented by Roman numerals.

Do you know the magic of no. nine (9)? Multiply any number with nine (9) and then sum all individual digits of the result (product) to make it single digit, the sum of all these individual digits would always be nine (9).

baguette	coq au vin	fondue	ratatouille
boudin	creme brulee	gougères	rillettes
brie	crepe	grenouille	roquefort
camembert	croissant	madeleine	salade nicoise
cassoulet	eclair	milles feuilles	tapenade
choucroute	escargot	mousse au chocolat	tarte tatin
confit de canard	foie gras	quenelle	

Sudoku may seem difficult at first glance, but actually it is not as hard as it looks!
The aim is to fill in the whole grid - and depending on the difficulty of the puzzle this can be quite easy (just counting and checking), or later on for more tricky puzzles require a bit more logic and reasoning.

The Basic Rule: The rules of Sudoku are that you should fill a number in to every cell in the grid, using the numbers 1 to 9. The restriction is that you can only use each number once in each row, each column, and in each of the 3x3 boxes.

Take a look at this incomplete puzzle...

1	?	7	9	5	6	8	2	4
			2	7	8			
		?	3	1				
			8					
			4					
			6					
			?					
			1					
			2					

The three red questionmarks are in places where there is a missing value - but it is easy to see which number to place in each. If the rest of the line or box is complete, then by a process of elimination, you know which value must be left!

In this case, the only number missing from the horizontal row is a 3.
The number missing from the vertical column is a 9.
The value missing from the box is a 4!

All you really need to get started is a Sudoku puzzle (preferably an easy one!), a pencil + eraser, and a spare half-hour when you think you can get away without being disturbed!

For our Teachers

Unlike last year, when Teacher's Day was celebrated with great pompous this year, although not in great splendor was celebrated in the midst of the First Term Examinations. Generally, Teachers' Day is celebrated as a tribute to the valuable contribution made by teachers to the society by imparting knowledge and enlightening and shaping the career of students. For students, Teachers' Day is an occasion to pay reverence and gratitude to them for their selfless effort in shaping their career and enriching the education system in the process.

As Sreeram C.H, the Ayathan School Captain said in his speech, India celebrates Teachers' Day on September 5 since 1962 as it is the birth anniversary of Dr Sarvapalli Radhakrishnan, a prominent thinker, philosopher and an educator. Across the nation tributes are paid to noted the scholar and former president Sarvapalli Radhakrishnan to celebrate his birth anniversary. Dr Radhakrishnan believed that "teachers should be the best minds in the country". The speech paying respect and thanking teachers for their contribution evoked a feeling of love, respect and above all gratitude in every student present.

Celebration of Teachers' Day is a wonderful opportunity especially for all of us to show our gratitude and appreciation to our teachers.

67th INDEPENDENCE DAY CELEBRATION

The students and teachers of Ayathan School celebrated the 67th Independence Day of our nation with great fervor and enthusiasm on Thursday August 15, at 9 am at the school ground. The program began with a simple prayer song "Namma Roopiyaaya Deyvamey". The Assistant Headmistress welcomed the gathering and introduced the chief guest. The Presidential Address was done by the Headmistress Mrs. Nisa Febeesh, which marked the beginning of the day's programs. To commemorate the sovereignty of our nation, the chief guest Mr. _____ unfurled the tricolor flag and all in unison sang the Flag Song and expressed the joy of freedom. To

mark the celebrations, an assemblage of events took place ranging from patriotic songs to skits that on the theme of Independence were presented by the students of different classes to commemorate the freedom struggle.

Students were dressed as Bhagat Singh, Subhash Chandra Bose, Father of the Nation Mahatma Gandhi, Indira Gandhi, and walked the pave in the traditional attire of all 29 states that touched the souls of the audience.

The A+ and A Grade achievers of the 2012 – 2013 academic year SSLC examinations were honored and presented with plaques and certificates. And at Ayathan School it was indeed a day of joy.
