

We Came, We Saw, We Conquered

Victory is Ours'

Achievements of 2013-2014

Aspirations are the fuel source for any organization to move forward. Ayathan School too has a vision to triumph over and in order to do so certain endeavours as such below are to be taken care off.

- ◆ 100% result in SSLC
- ◆ Modern & Advanced Play School, Kindergarten Play Area
- ◆ Surveillance Cameras, Public addressing system
- ◆ SMS Alerts to parents, Attendance Registering System
- ◆ New School Vans, 100% Digital Classrooms
- ◆ Trainers for Table Tennis, Yoga, Karate, Dance and Personality Development
- ◆ Promoted sports, participation in District Level for Football, Table Tennis and Swimming
- ◆ Reformation of Scouts and Guides, Formation of JRC (Junior Red Cross), SVG (School Voluntary Group)
- ◆ Mentoring system for 9th and 10th Std
- ◆ Increased number of computers

In an era where schools are held responsible for improving student achievement across all demographic groups, Ayathan School has definitely made an impact. Not alone in the fields of Education, Arts and Culture or Sports, but in all possible gaps Ayathan School is now identified as one amongst the prominent educational institutions across the district. They say 'Change is inevitable; some for good and some for the worse'. And it is definitely with great pride and honor that every Ayathanite believe that "We changed for the best".

The year 2013, began with the greatest news that was the direct result of hard work, dedication and above all the undying spirit of excelling and creating history once again. Ayathan School was one of the few prominent schools, who achieved 100 % success rate in the 2012 – 2013 SSLC examination. No stone was left unturned to appreciate the achievers and set standards for the forthcoming batches. Walk with us all the way through 2013 along these pages of our very own Ayathan Times, which in itself is into the third successful year. With a shared vision and dedicated individuals we move forward, with no turning back and welcome you whole heartedly to be a part of us.

Our Nursery team continues to work around the clock and have also been busy throughout the year, ensuring maximum showcase of the 'flowers of our little garden'. Programs like Rhymes Competition, Fancy Fete etc and not to forget the **Fresh Fruits and Vegetables Exhibition** that made its way to the media, hand print marks have all been unique and exemplary.

Sure to say, every little kid of our school are real examples to the rest of the world...screaming their lungs out "Make Way ... We are the Little Ayathanites...We are the Future".

What better way to gauge the growth of students than segregating them into squads. **Alpha, Beta, Gama and Delta**; the four mighty pillars of Ayathan School have always contributed to each others' growth by competing efficiently and ethically. At the start of the year, Houses were formed with existing students and all new comers were equally affiliated to the same. House Captains, Assistant Captains and House Teachers were selected. These leaders would pave way, guide and decide the participation and success of their houses. Students were also given a heads up on the Ayathan School Cultural Fest – Rhythm.

The second major event that Ayathan School saw was the **formation of the clubs** of the school; being – English Club, Malayalam Club/ Vidyarangam, Hindi Club, Eco Club, Social Club, IT Club, Maths Club, Science Club and finally the Sports Club. Mr. E.K Kutty a renowned Scientist and HR Consultant to the ISRO inaugurated and graced the event with his speech

on the need for such clubs and their dynamic activities. He emphasized and encouraged the students to necessarily participate in all possible club activities to widen their 'practical ability'. Teachers and students have raced time to ensure that every such talent got maximum showcase and was duly appreciated.

Arts and Culture are patronized immensely in Ayathan School. As the saying goes "Every day is an opportunity to be creative- the canvas is your mind, the brushes and colors are your thoughts and feelings"

Art is a medium for the manifestation of creativity and spontaneity. The students participated in various cultural programs across the district displaying the different strokes of budding artists and an opportunity to paint their dreams. The response of the students were over whelming. The display of Cultural integrity began with the celebration of **Independence day**, where in students showcased a short drama on a 'Non Corrupted India', Songs and Speeches in the three main languages. The 'A+' and 'A' graders of the previous SSLC batch were honored and awarded during the event.

The highlight of the event and the curtain raiser for all cultural activities was a mind blowing performance by the Lower Primary Students. We for sure saw, Gandhiji, Subash Chandra Bose, Sarojini Naidu, Bhagat Singh and Chacha ji along with the representatives of all 29 states. A mesmerizing sight not to be forgotten in the near future.

Ayathan school, patronized by the Brahma Samaj has been the pavement for an integration of many religious, cultural and ethnic practices. The school for the first time hosted the **Ramadan Iftar Party** in the evening by the STD X students along with the Teachers and Management.

The second major event that Ayathan School hosted was the **Onam celebrations** for the entire school. Teachers, Parents and Students equally participated in the event. Arjun R Nair of STD IX was the 'Maveli Thampuran' who definitely captivated every little heart assembled. They stormed in as a mighty wave that overwhelmed not only the ever loving king but all gathered. Various games for parents and teachers marked the beginning of the event. Flower carpet competitions and dumb charades contest filled the air with encouraging enthusiasm. The '**Onasadhya**' was well appreciated for its grandeur and elegance and efficient management.

Every student, teacher and parent were invited as at home for the 'sadhya' and had to their fullest. They did not forget to appreciate all involved in this grand celebration. We, the Ayathanites have always stood by our own statement which we made clear again; "We achieve our greatest happiness when we realize ourselves through others."

Kerala, God's own country is also a country of diverse festivals. And so to speak, this statement is being upheld with utmost care at Ayathan School. The Kerala School Kalolsavam is a festival unique in its structure and organization. Similarly is that of the school's cultural expo "Rhythm". The organizational set up is strictly monitored and conducted as per the manual drafted by the KEB [Kerala Education Board]. Looking back into the history of Rhythm, it is seen that the **Kalolsavam** has refined much

in letter and spirit. Students get the opportunity to express their talents at the school level, and is later taken to higher grounds such as the sub district level, district level and at last at state level. Gama's outstanding performance caused the downfall of the previous year's mighty winners Alpha to take the third position with team Beta in the second place. Again a splendid effort by the different teams of the school.

The **school Fairs** were held on the 21 October 2013. Students of the IT, Maths, Science, Social clubs exhibited their still and working models with un par excellence. The expo saw new themes and ideas displayed in a fete manner in where representatives ensured that every visitor

understood and took the knowledge imparted with them. Class rooms were arranged in a typical 'stall manner' where in behind every 'stall' one or more representatives were all set to take in questions and suggestions in a constructive manner, for a 'even better' presentation during the upcoming years. The students' and teachers' struggle to go various ways and find unique and well-designed projects were well appreciated and commented on.

Schools play a dynamic role in promoting health and enabling students to grow and mature into healthy adults. This is the place which plays the most important role of nurturing futuristic citizens of the country to face the challenges of life. Physical fitness is not only one of the most important keys to a healthy body; it is also the basis of dynamic and creative intellectual activity. Ayathan School organized its **Annual Sports Meet**

for Nursery at the grounds of Ayathan School. The Annual Sports for the LP, UP and HS section commenced in November. The Meet was declared open by Mrs. Nisa Febeesh, the Revered Head Mistress of Ayathan School on 28, October 2013. The most promising Sports Athlete of the year took the Oath and flat races for all the Classes were conducted. The students of all the four branches of the Groups of School competitively participated in the Meet. The Opening Day of the Meet was graced by the massive performance of the students along with their house captains, assistant captains and house teachers, who enacted their roles under the guidance of Mrs. Bhavani.P our beloved Physical Trainer for the school. The event was held over two days ensuring that every student had a much deserving chance to exhibit their physical strength.

As mentioned earlier and as we promised, the academic year 2013 – 2014 saw a massively active club awakening. All of the clubs performed various activities throughout the year with immense enthusiasm and excellence. The Malayalam / Vidyarangam club got noted for the most active club in the school. The extent of involvement of their activities were no match for the other clubs. The mind blowing expo '**Naatarivu**' captured the amusement of every

Ayathanite. They also organized classes for basic self oriented activities such as 'Kappa Krishi' and 'Book Binding'.

The highest rating ever received was the visit of the Social Club members to the Head Post office, appreciating the 'telegram' system that was called off recently. **Telegrams** were sent directly to the prominent individuals of the nation, such as the President of India.

They also excelled in conveying life oriented messages through rallies by the Scouts against '**Drugs**' and their ill effects on human health. The same too was widely accepted and appreciated.

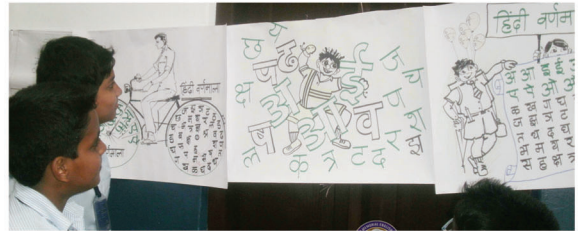

These events got mass coverage by the various Medias throughout the state. The beginning of the year saw the opening of the Ayathan School **Vegetable Garden**. Under the passionate leadership of the school's science teachers, the students of both Eco and Science Club, put their hands together and gave life to the vegetable garden. The garden was inaugurated by the honorable HM of the school.

Another major club that came into the active group was the sports club of Ayathan School. Apart from the various events within the school grounds, students under the efficient and untiring efforts of Mrs. Bhavani.P participated and won tournaments, competitions and events outside the school boundaries.

Truly speaking the Ayathan School Sports club has taken the school to greater heights in all possible fields of sports. Some of the tournaments included the cricket matches across the sub - district, the **table tennis tournaments** at the district levels, various swimming competitions and **football tournaments** across the district and sub district all ensured the participation of the athletic Ayathanites. Students from all sections of the school were tried and tied for these contests.

As said earlier, with the mission of providing holistic education, the students of Ayathan school participated in various competitions with utmost zeal and enthusiasm not just within the school region but on higher stages too. Students and Teachers have been busy throughout the year, exhibiting their talents and providing platforms to showcase abilities respectively. Equally, every Ayathanite reaffirm our commitment of cultural and social-economics diversity from which children enter into the portals of the school. As the saying goes; by one of the mighty rulers that the world has ever seen, "we came we saw we conquered" we the **Ayathanites** are the talk of town today. Our achievements speak of and exhibit the immense support and encouragement

by the school management, the guidance and leadership made available by our teachers and the undying and never tiring spirit, effort and hard work by the students.

Amidst the Half Yearly Examination, and before the school closing for the season, **Christmas** was celebrated on a grand scale.

Yeshwanth KT of VIII standard carried out the role of Santa Clause distributing candies and balloons. Carol singers accompanied the Santa papa during the event while he distributed sweets and danced in joy with the children.

The famous Jingle Bells song was played over the speakers bringing the feel of Christmas. Teachers and Students for the moment forgot their surroundings and joined in the celebrations. Students were also imparted with New Year greetings and were asked to take up resolutions that would enable them to begin an effective and prosperous New Year.

Apart from the above mentioned, the year began with a lot of promises and commitments. One of the biggest commitments to every student was an efficient and appropriate endowment of education. So to speak, with all of the above mentioned this serves as an acknowledgement for the same. A colossal change within the school area was the implementation of decent dressing and English speaking which by any undivided hesitation is a success in itself and has raised the school standards to those highly affluent schools within the district. The discipline council of the school has left no rock unturned to ensure that this standard is maintained not only in the school complex but in the students' personal lives too.

The Ayathan **Computer lab** as promised were improvised and widened to ensure that students have access to technologies for course work that requires current computer hardware and software and Internet access. Over the past few years, the school has invested extensively in the lab. The Ayathan School computer lab consists of twenty one systems and is spread over more than half of the school's Mini Auditorium area. The lab computers are equipped with Windows and Ubuntu and a variety of peripheral equipments. Softwares include word processing, desktop publishing, spreadsheet, e-mail, web browsers, and more of the latest that would suffice the requirement of students. Students in a pair of two are now able to receive hands-on understanding of their textual process.

The changes in the **Ayathan Play School** have been envied by many senior competitors within the area. The continuous streaming in where parents can personally witness as well care for without their personal presence has been widely acknowledged and appreciated. The introduction of simple nursery rhymes and the learning of letters have made the tiny tots and tiaras covet to get to school every day without the usual tantrums. Parents too are relieved as they are assured of a safe and pleasant ambience for their

kids to splurge their time with **Ayathan Play School** where kids of similar age groups come in contact with one another. The teachers of the school become a child's trusted friend and teach kids to open their minds to new activities, thoughts and information. To pride ourselves on; it is with great pleasure we make known our inquest for the upcoming year.

Children who are physically fit to absorb and retain new information more effectively than children who are out of shape.

Ensuring that no student is left behind, extensive coaching on various wings was initiated. One of the assurances agreed upon by the Ayathan School Management was the improvisation of the Sports for the students of the school.

The year began with the coaching of a single **TT court** which with the increasing participation and demand was well acknowledged with the introduction of a second court during the same academic year.

Cricket being one of the most favorite games of the nation, Ayathan School has gone greater extents to bring in the game within the school grounds and have been successful in taking them to different heights. Increasing participation in and improving the standard of youth cricket at the school level is a continuous aim for Ayathan School and forms a huge part of the daily work programs for all Ayathan staff. We recognize the importance of offering high quality opportunities for today's young cricketers so that children are inspired to play cricket and so we can continue to produce high quality representative teams and, hopefully, future First Class and Indian cricketers. Apart from Cricket, foot ball is also been prioritized within the school boundaries.

There is much more value to be gained from playing **school football** than winning champio-

nships. At Ayathan School, footballers are taught that winning is definitely a measurement of accomplishing goals; however, the value of playing football goes far beyond gridiron success. There are valuable lessons that players can learn in the process. While winning has its importance in the competitive realm of school football, the life lessons that can be learned from playing this game are of more value than titles, championships, and trophies. Ayathanites have been on the continual striving path to ensure the said success and establish in these fading grounds.

A sports portion – Yoga began last year and continues to excel in its area. When presented in a child's language, **yoga** can help counter the stress experienced by young people living in a hurry-up world. The bustling pace of the children's lives can have a profound effect on their innate joy and usually not for the better. When children learn techniques for self-health, relaxation, and inner fulfillment, they can navigate life's challenges with a little more ease. Yoga at an early age encourages self-esteem and body awareness with a physical activity that's noncompetitive. Fostering cooperation and compassion instead of opposition is a great gift to give our children.

As committed, **karate classes** for Ayathanites began at the start of this academic year. The first lesson taught was that Violence is no means for achieving anything and that Karate is not about violence: It's about self-improvement. It teaches children not to attack but to defend when necessary and is a fun activity that promotes healthy exercise that increases brain power, thus increasing grades especially for children with ADHD [Attention deficit hyperactivity disorder].

Karate is not just for boys: Girls benefit greatly from karate programs. The obvious and most important reason for a girl to get involved in this art form is the capacity for self-defense that she will develop. In today's increasingly violent world, crime can strike anywhere. Women are often the target of heinous crimes and, not knowing how to defend themselves, it can scar a young girl for her entire life. Being able to know how to defend herself is an invaluable tool as she grows up, taking her skills with her to college, and it gives not only her but also her parents a feeling that at least their daughter is safe.

Another group of activities that ensured students' active participation were the **Scouts and Guides** program along with the introduction of **JRC** – The Junior Red Cross. Monitored strictly

by the Sports Club and managed directly by the school management, Ayathan School saw a hiked number of students who were willing to be a part of these prestigious societies within the school. The main intention of bringing in the JRC was to educate and empower the children and youth in the spirit of Red Cross through constructive trainings and effective leadership, and provide opportunities for directing and harnessing their energy and idealism into worthwhile humanitarian activities.

At Ayathan School all JRC individuals are trained that the link between those who can help and those who need help is what the Red Cross is all about. This humanitarian organization was conceived because there are people in need of help and compassion. Through the generosity and cooperation of people, the Red Cross is able to perform its role in our nation's development and JRC simply follows these guidelines for building a better world. What more of an accomplishment can we claim for than that of being an efficient aid to the society through our children, the Ayathanites?

Although the Scouts movement was in Ayathan School, the involvement of all Ayathanites were partial. With extensive canvassing, today Ayathan School has more than 30 Scouts and Guides who believe in the overriding goal of the Scouting and Guiding movements; to help develop the young people in local communities. This goal is reflected in every activity of the Ayathanites who have voluntarily enrolled themselves into the program. There are many areas of young peoples' lives where the Scout and Guide movements can have a positive effect. Both groups strive to develop their members emotionally, socially, mentally/ intellectually, physically and spiritually so that they can make a positive contribution to their communities and the wider world. The Scout and

Guide movements provide a valuable addition to the formal education offered in Ayathan School. Ayathanites would be in immense denial if the 'Volunteer' program which does consist mostly of the Scouts, Guides and JRC are not being acknowledged.

Children are like clay in a potter's hands. Just as a potter gives a desired shape to the clay in his hands, so do children become what their parents make them. These days, more and more children live in a family circle where both parents are working and often, such children rely heavily on their teachers for help, advice and guidance. The role of Ayathan School Teachers are crucial in a student's life and is dealt with very essential steps taken towards establishing a professional career. Every teacher in our school efficiently lay the foundation for developing their students' nature, personality and the individual self. The school saw a massive number of new teachers with an aim to better the society through our school. We take this opportunity to welcome all of the new teachers to the Ayathan Family.

Understanding that proper education is the need of the day if we want our country to progress because every child must be given the best level of education possible and to achieve his / her goals, it is essential to develop proper infrastructure, hire well trained, motivated teachers who can not only act as facilitators of education but also guide students and become a good role model for them, provide a delightful ambience, acknowledge and appreciate achievers, encourage and motivate striving students. With this motto in mind and the never dying epitome of accountability, commitment, hard work and above all the spirit of sailing through all hurdles, we the Ayathanites follow the footsteps laid forward for us by our visionaries. We take this opportunity to Thank all Ayathanites, past and present for contributing to our success.

With the path laid for us by our patrons, guided by our teachers, headed by our seniors and supported by our fellow members, We the Ayathanites as always humbly proclaim that We Survived and Now, We Exist.

Our 'Exemplary Performers' who took our school to greater heights!
